September- Back to Kenya

Time with the eMi team was amazing – survey, borehole, perk tests, soil tests, investigation for power and water, waste water, and building materials... they brought their expertise to the table, asked questions, and brought my dreams and visions of the property to the place of creating drawings of what has been bouncing around in my head. My dreams found their way to artist renderings and floor plans being taped to the wall – absolutely thrilling!!

We expect to have the final package from eMi within about 2 months. This will provide us detailed information for plans/engineering/cost break down /phase staging as we look to the future.

Join us in asking God for the next steps... for the financing... for the way forward... it is my/our hearts' desire to get our children into fulltime care as soon as possible! - deanna <><

September 26 – Deanna was honored to speak at Dark to Dawn's Orphan Adoption Seminar, sharing a strategy to "The Way Forward" as we pursue the mandate to care for widows and orphans!!

October 15 – Deanna is again speaking, this time at a Women's Bible study group from Calvary Community Church in Westlake Village, CA.

October 25 – Miracle House will have children available for sponsorship at Calvary Community Church's Child Sponsorship Fair! Additionally, there will be other unique opportunities to give to Miracle House to help Kenya's orphans!

PLEASE pray with us!! We want you to know:

16 of our children need another \$30 per month child sponsorship

15 of our children need \$60 per month child sponsorship

Every trip, I have to tell guardians we can't take more children until we have our current MH kids sponsored!

* An old woman who finally found relief to know her last child is provided for at MH... this summer she received 3 grandchildren because her son recently passed away. Now she is seeking care for these three at Miracle House, and I have to tell her no...

* A younger sibling of one of our children is now old enough to come to MH but I can't say yes, but there is cause to fear for this 3-year-old child's well being!

* When prayer walking this summer, one of the team's men returned to MH only to realize that a little friend, a 3 or 4 year old from the slum who had been walking with the team, didn't want to remain outside the gate! She did that 'I don't want to get down, I won't stand up, and I won't let go' with the legs holding on kid trick! She cried, as she had to be left outside the MH gate and not enter with the MH children and team...

We need more sponsors!!! There are more children! Yes, there will always be more children, but there are some that we know will be our next MH kids; we so much want to welcome them IN to our MH family!!! Thank you to our sponsors, share the need with a friend!

We are so pleased with the percentage of newsletters that are going out via email. Thank you, this is saving time and money!! In order to ensure receipt of the monthly newsletter, please enter childsponsorship@miracle-house.org and info@miracle-house.org to your safe list.
